**Work Experience**  
-----**Coding Bootcamp Student**

Case Western Reserve, Cleveland, Ohio

October 2018 – Present

I am currently enrolled in the Coding Bootcamp at Case Western Reserve University. Technically this isn't work experience but it is at the same time because of the intensity of the course. We are actively engaged in learning Full Stack Web Development using programming languages and technologies such as Javascript, HTML, CSS, Node.js, APIs and many others. I have personally worked on learning PHP and Python in my personal time so my programming learning extends beyond school.

**Freelance Audio Engineer**

Mista Wizard Audio

March 2005 – Present

Consultation, installation, recording, mixing, and editing service.

**Lumber Sales Associate**

Home Depot, Mentor, Ohio

August 2014 – January 2018

Assist customers with product recommendations, loading carts and cutting material. I'm also responsible for keeping bays and lumber stocked. I'm a licensed Reach Truck and Tow Motor operator.

**Flow Team Member**

Target, Willoughby, Ohio

October 2013 – February 2015

I worked primarily sorting health and beauty items as they come off the truck and push them to the shelves. I have also worked in the produce area, been responsible for pushing product in the seasonal area by myself, and worked in the backroom managing inventory that's coming from the floor and going out to the floor. I regularly deal with store guests helping them with whatever they may need.

**Multimedia Director - Volunteer**

The Branch Community Church

2008 – 2013

Operates, installs, and maintains audio/video equipment. Trains other volunteers. Helped design current website.

**Broadcast Audio Engineer**

Full Circle Films

March 2013

Setup crowd mics and assemble audio gear at commentator's table. Mixed and recorded all audio for future broadcast.

### **Computer Operator**

OAQ Technology Solutions, Cincinnati, Ohio

June 2005 – September 2007

I provided some technical support for GM in the computer room of a PDC warehouse including the monitoring of a computer network and networked printers. This job also requires me to work with Toshiba TEC printers used in labels and standard office inkjet printers.

### **Sound System Installation**

Abundant Life Apostolic

March 2007 – July 2007

I worked with Abundant Life Apostolic helping with the installation and configuration of their sound reinforcement system. I also aided in the training of their volunteers in running their sound system.

### **Education**

-----  
International College of Broadcasting

Dayton, OH

Audio Engineering Certificate (2004-2005)

### **Skills**

-----  
Programming, Web Development, Debugging Code, Audio engineering, Computer troubleshooting on multiple OS platforms, Maintenance, installation, and repair of Audio and computer equipment.
